CORSA

Don’t Get Lost!

The Corsa handheld digital compass has every-thing you need to navigate your way through the outdoors. On the outside, you'll find a rugged piece of equipment designed to take on the elements. On the inside, you'll find the same patented sensor technology that Ford, GM and Chrysler have put in their vehicles.

If you're somewhere on Earth, it will know where you're going. Not even an expensive GPS system can say that. The easy-to-read display provides accurate, detailed information about your position, and the clock and timer help monitor your adventure.

Patented Magnetic Sensor Technology
Used in Timex watches and GM, Ford and Chrysler vehicles

Easy To Read Display
Shows precise direction with 8 cardinal points and 1° numeric digits

Ruler Markings
Useful in measuring distances on a map in inches and centimeters

Automatic Shut-Off
Programmable shut-off conserves batteries

Clock And Timer
Displays in 12/24 hour format; use as stopwatch

Magnetic Distortion Detection
Warns when magnetic interference is present and is affecting accuracy

Water Resistant
Up to 10 feet

Low Power
Uses 1 lithium battery (included), providing over 500 hours of battery life

Specifications
2.0" x 3.4"x 0.8", 2.7 OZ

Additional Features Available In Model X473:

Backlight
Programmable duration

Bubble Level
Attached to lanyard to improve accuracy

Bearing Point Storage
Used in setting a course

Developed by America's premier sensor technology company.
